Empathy Map Canvas – USER: Tenant / House Seeker

Dimension	Insights
THINKS	• I need a house within my budget. • Is this property genuine and verified? • Can I find a house near my workplace or college? • Are there any hidden charges? • How can I compare different properties easily?
FEELS	• Frustrated by visiting multiple locations. • Confused by too many rental options. • Worried about fake property listings. • Stressed due to time constraints. • Excited to finally find a suitable home.
SAYS	• I need a house quickly. • Show me properties in my preferred location. • I do not want to pay broker commissions. • Can I trust this property listing? • I need complete property details before deciding.
DOES	• Searches rental properties online. • Compares rent prices and locations. • Contacts property owners directly. • Applies filters based on requirements. • Visits shortlisted properties before finalizing.
PAINS	• Difficulty finding verified rental properties. • Lack of accurate and updated property information. • Time-consuming property search process. • Dependence on brokers and intermediaries. • Limited communication with property owners.
GAINS	• Quick and easy property search. • Verified and reliable property listings. • Easy comparison of rental properties. • Direct communication with property owners. • Time-saving rental management process. • Secure and user-friendly platform.

Empathy Map Canvas – USER: Property Owner

Dimension	Insights
THINKS	• How do I reach the right tenants? • Are my listings visible to enough people? • How do I manage

Dimension	Insights
	multiple booking requests? • Will my property be approved by the admin?
FEELS	• Overwhelmed managing inquiries manually. • Hopeful about reaching more tenants. • Relieved to have a structured platform. • Confident when bookings are managed digitally.
SAYS	• I want to list my property without hassle. • Show me all my booking requests in one place. • I need to approve or reject tenants easily. • My property details should be presented clearly.
DOES	• Lists properties with photos and details. • Reviews and responds to booking requests. • Updates property availability. • Tracks tenant inquiries and approvals.
PAINS	• Managing inquiries through multiple channels. • Difficulty verifying genuine tenant interest. • No structured way to manage booking status. • Limited tools to showcase property details.
GAINS	• Centralized dashboard for all listings. • Structured booking request management. • Wider tenant reach without brokers. • Admin-verified platform builds trust.
